Secondary School of Education
CGPA: 8.5

Technical Profile

Programming Languages	C, Java, Python, JavaScript
Web Technologies	HTML5, CSS3, ReactJs

Software Platforms

Windows
Linux

Technical Exposure

Workshop:
Participated in a 5-day workshop by SWECHA organisation on
- HTML, CSS and PHP.
- LINUX ADMINISTRATION.
- DATA ANALYTICS.

Certifications:
- Certificate of completion on **Ethical Hacking** course.
- Qualified in **GATE 2019** by securing a score of 418.

Languages

English
Hindi
Telugu

CURRENTLY WORKING ON AND FUTURE ASPECT

- I am currently working on **JavaScript, React and React-native** tools, which are used to create applications.
- Very anxious to gain knowledge and find the vulnerabilities which can cause harm and to patch them.

TOOLS Worked on

Metasploit Framework
WireShark
Ettercap
Nmap

Project details

Project 1

Title: COVID-19 Tracker

Description: This application is used to track COVID-19 local and global coronavirus cases with active, recoveries and death rate on the map, from all over the world.

Project 2

Title: Exploitation of an android device

Description: This project is all about finding vulnerabilities and analysing them. We will explore what information the attacker might get if he Social Engineer a user/victim to compromise the device and gain a connection with the victims' device.

Personality

Proactive
Optimist
Resilient
Friendly
Dedicated
Collaborative
Quick Learner

Hobbies

Listening music
Playing chess
Volleyball
Internet surfing

DECLARATION

I hereby declare that the above-mentioned information is true according to my knowledge.
